THE RESISTANCE

A CAMPAIGN OF THE NATIONAL WOMEN'S LAW CENTER

OUR MANIFESTO

We the Resistance stand together and rise each day to resist the unprecedented assaults on women's legal rights and freedoms by the Trump Administration and leaders in Congress.

We the Resistance champion the right of all people to be free from discrimination and oppression, including women, girls, people of color, immigrants, those with disabilities, and LGBTQ and non-binary people.

We the Resistance reject the sexism, misogyny, racism, xenophobia, homophobia, transphobia, and ableism that harm us and hold us back.

We the Resistance speak truth to power.

We the Resistance defend our right to have the children we want, raise the children we have, and plan our families through safe, legal access to abortion and birth control.

We the Resistance believe everyone has the right to affordable health care that meets our needs.

We the Resistance fight to reduce income inequality, achieve equal pay, and ensure the economic security of women and their families.

We the Resistance believe in support for women and their families, including high-quality, affordable child care, fair work schedules, paid family leave, fairness for pregnant workers, a quality education, and a strong social safety net.

We the Resistance believe women and their families should live in safety and be free from violence.

We the Resistance will fight to protect our constitutional right to vote and our freedom to worship and to speak our minds, and we reject discrimination in the name of religion or moral values.

We the Resistance believe in our right to raise our families in healthy environments with clean water and clean air and to protect our climate.

We the Resistance believe in fair and just immigration policies that allow immigrant women and their families to be free from discrimination and oppression and avoid family separation.

We the Resistance face our future fearlessly, with determination, no matter the obstacles that come our way.
