This state does not have a child and dependent care tax provision. Background on state child and dependent care tax provisions and gold standards is available in *Making Care Less Taxing*.

If you are interested in enacting or improving a child and dependent care tax provision in your state, NWLC is here to help – including by making policy recommendations, drafting or reviewing legislative language, or conducting a conference call or webinar for advocates in your state. Please contact Amy Matsui at amatsui@nwlc.org for more information.
