WE, THE PEOPLE,

are furious with the politicians who are rushing through Amy Coney Barrett's confirmation to the Supreme Court.

Because President Trump picked Justice Ginsburg's replacement before she was even laid to rest,

WE DISSENT.

Because Amy Coney Barrett threatens our fundamental rights—from abortion and health care to LGBTQ equality and education—WE DISSENT.

Because millions across the country are already voting, and because by rushing through this confirmation process so close to election day, they're undermining our democracy,

WE DISSENT.

The pursuit of justice doesn't end with any single vote, decision, or person.

As Ruth Bader Ginsburg taught us in her dissents, there is always an opportunity to lay a path to a better future.

Because the Senate has failed to respond to the devastating COVID-19 pandemic that has killed more than 220,000 people, and counting, and has taken our loved ones, our jobs, our homes, and our safety, WE DISSENT.
