THE FUTURE WE'RE FIGHTING FOR
The National Women’s Law Center’s annual gala brings together gender justice policy makers, influencers, and thought leaders working at the nexus of law, policy, and culture change. On a year that disrupted conversations about inclusivity, highlighted the need for accountability and transparency, and inspired countless movements to change, it’s more important than ever to find leaders who balance the value of coming together with the need to adversity.

With the gala as the first in-person event for women in the country, hopefully we will get a chance to come together and achieve the future we deserve, the future we're fighting for.

Join us for this important night as we shine a light on the leaders who are taking action to make things better.

Contributions made through this event will further support the rights of women and girls.

For sponsor information or to purchase tickets online, register today at www.nwlc.org/2020Gala
