\*State has insufficient data due to small sample sizes to calculate state wage gap for Latina mothers.

Source: National wage gap calculated is based on 2019 American Community Survey. State wage gaps calculated by National Women's Law Center (NWLC) are based on the U.S. Census Bureau 2015-2019 American Community Survey using IPUMS. Figures are median annual earnings for full-time, year-round workers. Mothers and fathers have at least one related child under 18 at home. Latina mothers are those who self-identified as being of Hispanic, Latino, or Spanish origin. Latinas may be of any race. White, non-Hispanic fathers are those who have self-identified as white but who are not of Hispanic, Latino, or Spanish origin.
